

Thank you to all of our residents for your patience whilst the Graveley Parish Council arranged for the repair of some of the playground equipment.

In line with current government Covid 19 guidance, please adhere to the following:

- Please can parents clean their children's hands before entering the playground and after using the equipment, using a hand sanitiser often.
- Wear appropriate face coverings, if/when required.
- Give each other room and maintain social distancing within the playground area and when using the benches, according to the government's latest advice.
- Avoid busy times. If the Graveley playground is busy then please find another playground in which to play or come back later.
- Please take any litter home with you.
